Kaarigar Setu: demo data already stored in the database

Generated 2026-10-12 from the local dev database `ks_blueprint`. **All names and phone numbers are made up** (the demo seeder, `scripts/demo-seed.sh`, uses 90000 00101-00299, which are never contacted). Phones are stored encrypted in the database; the numbers below come from the seed file. Sign in as any of them without a code at `http://localhost:8090/demo`.
